About me

I started out in the world of business, but from the moment “Hello World” flashed in the terminal of my first application, I knew I was hooked in the world of software development. What started as a simple print statement became a full-fledged passion that only gets more exciting as time goes on. When I’m not coding, I can be found cooking or tickling the ivories!

Work Experience

SOFTWARE DEVELOPER ASSOCIATE | ACRONIS | 06/2022 - 10/2022

- Supported development, unit testing and user experience using GoLang programming language.
- Configured and optimised code to fit design parameters.
- Updated old code bases to modern development standards, improving functionality.

LOGISTICS SPECIALIST | MINDEF | 03/2018 - 07/2021

- Entrepreneurship: I was a key player in an entrepreneurial venture, helping the sales of imported cutlery. The turnkey experience involved the set up of the business, wide ranging from business sales planning to the execution of, marketing and operations implementation. Our proactive team play led us to be amongst the top 3 of 12 based on Realized Profits.
