

# EVIN WOON

## Full Stack Developer

Full permit to work in the Netherlands

I started out in the world of business, but from the moment "Hello World" flashed in the terminal of my first application, I knew I was hooked in the world of software development. What started as a simple print statement became a full-fledged passion that only gets more exciting as time goes on. When I'm not coding, I can be found cooking or playing the piano!
